PROFESSIONAL SUMMARY

Aspiring MERN Stack Developer with hands-on experience in building responsive web applications and RESTful APIs using MongoDB, Express.js, React, and Node.js. Skilled in JavaScript, MySQL, Git, and Object-Oriented Programming (OOP). Passionate about developing scalable web applications and continuously learning modern technologies.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Programming Languages:** JavaScript, Python
- **Core Concepts:** Object-Oriented Programming (OOP), REST APIs, MVC Architecture, CRUD Operations, JWT Authentication
- **Tools:** Git, GitHub, Visual Studio Code, Thunder Client

EXPERIENCE

Infotact Solutions

June 2026 – Present

Associate L1 – Web Development Intern

- Developing web applications using HTML, CSS, JavaScript, React.js and Node.js.
- Working with REST APIs and backend integration.
- Collaborating with the development team on debugging, testing and feature implementation.
- Following industry best practices using Git and modern development workflows.

Cognifyz Technologies

[View Certificate](#)

Software Development Intern

- Worked on web development tasks using HTML, CSS and JavaScript.
- Built responsive web pages and improved UI implementation.
- Collaborated on assigned development tasks and strengthened frontend development skills.

JPMorgan Chase & Co.

[View Certificate](#)

Software Engineering Virtual Experience (Forage)

- Built backend services using Java and Spring Boot.
- Implemented REST APIs and transaction processing workflows.
- Integrated SQL database operations and business logic.
- Worked with software engineering best practices in a real-world simulation.

PROJECTS

Talent Tap – Job Portal Web Application

- Developed a responsive job portal using HTML, CSS, JavaScript, Node.js, Express.js and MySQL.
- Implemented user registration, login authentication and job management features.
- Designed RESTful APIs for handling user and job-related operations.

Online Quiz Application

- Built an interactive quiz application using HTML, CSS and JavaScript.
- Implemented score calculation, timer functionality and dynamic question rendering.
- Designed a responsive interface for an improved user experience.

JPMorgan Chase Software Engineering Virtual Experience (Forage)

- Developed backend services using Java and Spring Boot.
- Integrated REST APIs, SQL database operations and transaction processing logic.
- Applied software engineering best practices in a real-world simulation project.
